Teri,

Please forward this message to the trustees. Thanks.

Jamie

Folks,

The file attached below includes the latest outline (draft) of the integration effort and identifies areas where USGS would be involved. Discussions between Brad, Aaron and I continue (so far, so good).

Jamie

Aaron/Brad,

The attached file contains PNNL's proposal for the integration effort. I've revised their outline to help clarify the role of USGS (Note: I see your role in Task 1 as being more of a input/review/comment role versus having to prepare the initial draft). Hopefully it will be of some use to you in your planning process. Call me if you need anything.

Jamie
